Aircraft Information & Items Needed

Please provide as much of the following as possible so that we may serve you to the best of our ability. The more complete the information, the more accurate and timely the appraisal.

Photos

Send high-quality, full-size photos. You may send more than requested.

— Exterior

At least one from each side, plus front and rear. Include engines and propellers if applicable.

— Interior

Show as much of the interior and its condition as possible: pilot / co-pilot seating, rear seating, carpeting, headliner, side panels, and interior glass.

— Panel

At least one full panel photo showing all avionics. Photos of the quadrants, controls, and breakers are also appreciated.

Logs

Tell us up front about any missing logs, gaps, or foreign entries. Complete logbooks are welcome; at minimum, send the latest annual inspection from each logbook, plus the last engine overhaul/exchange, prop overhaul/exchange, and IFR compliance checks. For any damage history, include the log entries and the repairs.

Records

Send the latest weight & balance showing useful load. For jets or turbo-props, maintenance-status tracking documents are appreciated and may be submitted in lieu of logs if all-inclusive. We must know current Airframe, Engine, and Propeller hours, and the annual/phase inspection status. For jets and turbo-props we also need cycles — especially landing cycles.

The worksheet on the following pages may be filled out digitally. If you already have a specification sheet prepared, you are welcome to send that instead. Complete only the information that applies to your specific aircraft.

Aircraft Specification Worksheet

Complete only what applies

AIRCRAFT

Year | Make | Model

Registration No. | Serial Number | TTAF | Landings

ENGINE(S)

Engine Make | Engine Model

Engine 1 Serial # | Hrs. Since New | Total Cycles | Hrs. SOH

Date | By Whom

Engine 2 Serial # | Hrs. Since New | Total Cycles | Hrs. SOH

Date | By Whom

Engine 3 Serial # | Hrs. Since New | Total Cycles | Hrs. SOH

Date | By Whom

PROPELLER(S) / APU

Propeller 1 Make | Model | Serial #

Hrs. Since New | Hrs. SOH | Date | By Whom | No. Blades

Propeller 2 Make | Model | Serial #

Hrs. Since New | Hrs. SOH | Date | By Whom | No. Blades

APU Make | Model | Serial #

Hrs. Since New | Hrs. SOH | Date | By Whom

RECORDS & MAINTENANCE

☐ Complete Log Books ☐ Hangared ☐ IFR Certified Date Due

☐ Missing items (W&B sheet, Airworthiness Certificate, POH, or other) — if checked, explain below:

☐ Current Damage ☐ Historical Damage ☐ Corrosion Issues ☐ Hail Damage

If checked, explain

GENERAL COMMENTS ABOUT THE AIRCRAFT

PLEASE NOTE

- Current maintenance-tracking data or copies of logs are needed on most appraisals.
- Landings and cycles do not apply to piston-powered aircraft.
